PROFESSIONAL SUMMARY

Software Engineer with a strong background in architecting high-performance backends, event-driven pipelines, and scalable data services using **Java**, **Spring Boot**, and **Apache Kafka**. Skilled in developing high-performance **REST APIs**, real-time data pipelines, and robust storage layers using **PostgreSQL** and **MySQL**. Experienced with **Docker**, **Kubernetes**, and **CI/CD pipelines**, with strong ownership in production support, monitoring, and service lifecycle management.

TECHNICAL SKILLS

Languages	Java, Python, SQL, JavaScript, C++ , Linux
Frameworks	Spring, Spring Boot, Microservices, Hibernate/JPA, REST APIs, JUnit, Mockito, Maven, Node.js
Cloud & Data	AWS, Apache Kafka, Redis, PostgreSQL, MySQL
AI/ML & Infrastructure	GenAI/LLMs, AI Classification Pipelines, Docker, Kubernetes, Jenkins, CI/CD Pipelines, Git, Jira, Confluence
Observability	Prometheus, Grafana, Micrometer, JMX, Dropwizard, JConsole, VisualVM
Problem Solving	OOPs concepts, Data Structures and Algorithms, Low-Level Design, System Design

PROFESSIONAL EXPERIENCE

Senior Software Development Engineer | [Trellix, Bengaluru](#)

Nov 2025 – Present

- Led **Java 8 → Java 21** migration of on-prem and SaaS frameworks, achieving a **20% reduction in infrastructure costs** through modern runtime optimizations and improved resource efficiency.
- Architected **licensing infrastructure** for a high-scale Generative AI server enabling global customer distribution, commercial deployment, and automated file reputation processing at enterprise scale.
- Re-engineered end-to-end **JMX and Prometheus metrics reporting** workflows to deliver high-fidelity telemetry and significantly improve local instance observability and alerting coverage.

Software Engineer | [Trellix, Bengaluru](#)

Jul 2024 – Oct 2025

- Engineered an **AI-driven classification pipeline** to remediate unknown file reputations across **billions of records**, reducing unknown entities by **99%** and accelerating threat response at scale.
- Designed and deployed a **real-time telemetry and backend integration module** surfacing sandbox submission failures on a user-facing dashboard, driving a measurable reduction in support ticket volume.
- Conducted deep-dive **Root Cause Analysis (RCA)** and JVM performance tuning to resolve high-priority production incidents and maintain platform stability under sustained high load.

Associate Software Engineer | [Trellix, Bengaluru](#)

Jul 2023 – Jun 2024

- Integrated enterprise security products with **cloud-native and on-prem sandbox environments**, enabling automated, low-latency threat analysis and dynamic file detonation workflows.
- Re-architected **VirusTotal v2 → v3 RESTful API integration** layer, handling high-volume JSON payloads and modernizing critical threat intelligence pipelines with zero downtime.
- Built a **pre-execution validation filter** to assess file types before submission, reducing sandbox operational overhead while maintaining **90%+ JUnit test coverage** across the service.

Graduate Intern Technical | [Trellix, Bengaluru](#)

Jan 2023 – Jul 2023

- Engineered a seamless integration between the core enterprise security product and **on-prem sandbox environments** to execute secure, low-latency automated threat analysis.
- Optimized backend product and documentation **build pipelines**, reducing deployment latency and ensuring accurate multi-version synchronization via automated **CI/CD workflows**.

EDUCATION

Bachelor of Technology, Computer Engineering · CGPA: **9.42 / 10** | [Savitribai Phule Pune University \(SPPU\)](#) Aug 2019 – Jul 2023

ACHIEVEMENTS & AWARDS

- 2× Bravo Awards** (Director of Engineering & Threat Intelligence Team) - Recognized for seamless sandbox integrations and a GenAI-powered file reputation remediation system at scale.
- Trellix Hack-AI-Thon 2025 Finalist** - Ranked **Top 9 out of 150+ teams** for AI innovation excellence.
- LeetCode Knight** - Max Rating **1902**; solved **1400+ DSA problems**. [\[Profile\]](#)
- All India Rank 145, Global Rank 197** - Global Coding Challenge 4.0 (Credit Suisse International Competition). [\[Post\]](#)
- Runner-Up** - Citi Code Challenge 2022 (Citibank India) [\[Certificate\]](#) & Amdocs Hackfest 2022 (National Hackathon) [\[Certificate\]](#)
